

Indiana Department of Education

Presents:

HIV/STD and Sexuality Education Update Workshop March 19, 2008

***Attention:** Because of a large response to the Update Workshop held on October 2, 2007, Al Craven is returning to provide his information once again!*

Featured Speaker:

Al Craven, MS

- Age appropriate, classroom tested strategies and materials for HIV and Sexuality Education will be shared!
- Student-centered, experiential materials focusing on helping youth postpone risky behaviors!

How can educators address important sexual health topics: love, risk reduction, prevention, and responsibility and still keep positive health for youth as the basis for a program? Al Craven, an educator from Michigan with over 20 years of classroom experience in the areas of health and sexuality education will provide answers to this question through his interactive and high energy session.

Using his years of experience Al will share age appropriate, classroom tested strategies and materials that are designed for small group and full classroom experience for the secondary student. The materials are student-centered, experiential and help learning happen in a non-threatening manner, all focusing on postponing risky behaviors and helping students personalize the information for positive sexual decision making. Participants will leave with a wealth of materials and ideas, knowledge of how to effectively implement these ideas, as well as how to improve upon current classroom presentations and atmosphere.

FREE WORKSHOP!!

8:30am to 3:00pm

8:00am – 8:30am Registration
8:30am – 3:00pm Workshop
